

# MURPHY TOPS FORD SCHOLARS AGAIN

**BROTHER TIMOTHY** personally congratulates Bob Murphy for attaining highest average in two successive marking periods.

Wishing to recognize outstanding scholastic achievement, Brother Timothy, O.S.F., congratulates Robert Murphy of Holy Family Parish for his subject average during the second marking period of 96.1%. This is a repeat performance for Bob. In the first marking period, Murphy topped all Ford students with a 96% average. Brother Timothy remarked that Murphy's ambition and drive could well be emulated by all seriously minded scholars; and at the same time, Brother challenged the remainder of the Ford Student-body to compete with Bob for top honors during the third marking period, the results of which will be distributed on April 7.

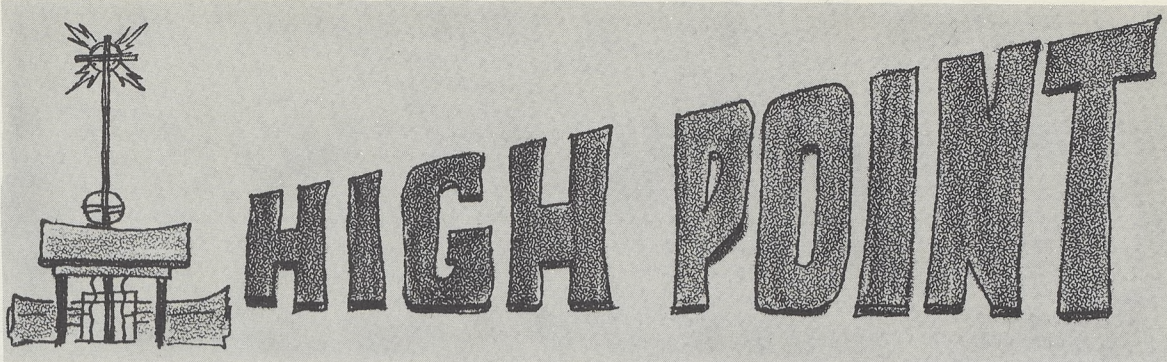

In addition to Bob's outstanding achievement, the following students also received First Honor's recognition:

Lawrence Picarello, 101.....	93
Alexander Krzeminski, 101.....	92
George Meyer, 101.....	92
John Mullen, 101.....	92
Paul Manza, 102.....	92
Robert Lavender, 101.....	91
Philip Tesoriero, 102.....	91
Angelo Giordano, 103.....	91
Thomas Ryan, 101.....	90
Angelo Tuturro, 101.....	90
Mario Pinto, 102.....	90
Joseph Butler, 103.....	90
Robert Vinci, 104.....	90

Those who qualified for Second Honors which would consist of an over-all subject average of 85% to 89% are the following:

John Buddensick, 101.....	89
Anthony J. Durso, 101.....	89
Bernard Gallitelli, 101.....	89
William Garry, 101.....	89
John Ritter, 101.....	89
Richard Sclafani, 101.....	89
Joseph Dahl, 102.....	89
Kevin Ryan, 102.....	89
Frank J. Sena, 103.....	89
John Bielicki, 101.....	88
Joseph De Stefano, 101.....	88
Bruce Humenik, 101.....	88
Vincent Litto, 101.....	88
Brian A. Maher, 101.....	88
Vincent P. Puglia, 101.....	88
James Fiorentino, 103.....	88
Richard Dolcy, 104.....	88
Kevin P. Hickey, 104.....	88
Richard M. Morabito, 104.....	88
Vincent Carlucci, 107.....	88
Michael A. Jaccarino, 101.....	87
Michael Papagno, 101.....	87
James Fitzgerald, 102.....	87
Thomas M. Raleigh, 102.....	87
Vincent Salvati, 102.....	87
Robert Zelkovsky, 102.....	87
Raymond Finch, 103.....	87
Kenneth Tom, 103.....	87
Felix Bocchino, 104.....	87

**Be Present for the Holy Week Liturgy**

Vol. 1, No. 3

Bishop Ford Diocesan High School, Brooklyn, N. Y.

April 8, 1963

## 477 FROSH REGISTER AT FORD FOR 1963

The portals of Bishop Ford High School were opened for the first time on March 20, in order to welcome the freshman class of 1963. The registration was supervised by the Franciscan Brothers and lasted each morning for three days. At the close of the registration, 477 had joined the ranks of Ford.

They represent the Catholic populace from thirty-nine Parishes within the diocese, seventeen of which are new to the Bishop Ford register. Admission to Ford was based upon entrance examination and Parish Quota which is established by Diocesan Officials.

The new freshman were fortunate in being the first to enter the new building officially, but with their coming the present enrollment is optimistic relative to their date for entrance.

**BISHOP FORD'S FRANCISCAN STAFFS** welcomes 1963 freshmen during registration at school site.

The construction of the school is advancing rapidly. The Franciscan Friary located on the top floor is nearing completion. It will house the forty Franciscan Brothers who will eventually staff the school when it reaches the peak enrollment of 1800 students. The ten additional Brothers who will increase the teaching staff next semester will be complemented by a similar increase of laymen.

With our expected entrance into our building and a new freshman class, many other dreams will be reality. In order to achieve the education of the "Whole Man," which already is tradition at Ford and a trademark of Franciscan education, there will be an increase of social activities, more editions of *HIGH POINT*, more and expanded club activities, religious exercises and organizations, music, orchestra, dance band, drama, athletics, physical training - *ad infinitum*. Some day the students of Bishop Ford will be proud to present their first Yearbook.

It is certainly with eager anticipation that the students of Bishop Ford await our going home. It is with genuine welcome that we greet the Freshmen of 1963. We urge that they come seeking that which is great, for if they do, they will find it offered at Ford.

## Language Laboratory Modern Ford Feature

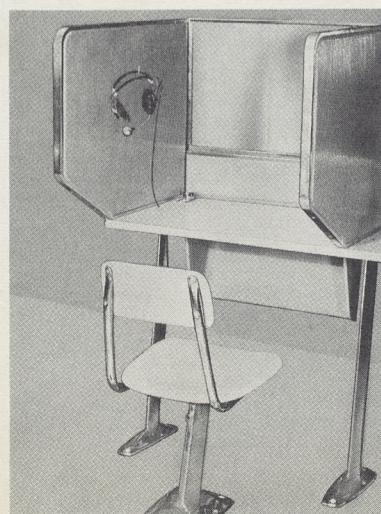

Through the efforts of Brother Dermot, plans have been completed for the installation of a language laboratory which will accommodate forty-five students.

Each student will be situated in an isolated, sound-proof booth which will provide the individual with a head set microphone,

enabling the student not only to listen to the language tapes, but also to record his own voice, giving him the opportunity to employ methods of self-correction. This will greatly complement the teaching techniques being utilized in the foreign language program.

The room will be air-conditioned in order to provide the necessary comfort for each student and to prevent noises from the Parkway which would be harmful to this procedure.

The *Lingua-Trainer*, which is the type of laboratory which has been chosen, is the most advanced of its kind. Bishop Ford students will be given every opportunity for perfecting foreign language skills.

## Walk like a man...

In the current "pops" list, we can read the title "Walk like a Man." In our day and age, it might be well to examine just what it is to be a man. Certainly the primary characteristics are physical. God choose from eternity which members of his human race were to be male. Yet somehow, it seems that some get fouled up in the process of growth.

Saint Joseph was a man. The Bible attests to the fact by saying that he was a just man. The Biblical term "Just" doesn't merely connote honesty, but rather an acceptance of all manly responsibility and obligation which our God-given stations would demand.

For example Joseph worked like a man. He knew what his goals were and he pursued them. He wasn't a slacker. If he went into the shop, Joseph really worked there until he emerged. Today so many of the so-called men could use his example of work—and how about us! Parents sacrifice both time and finances to give us what they know is best for us, a Ford education. Some of us are men. We have accepted manfully the responsibilities of education—the grind that sometimes it can be—and we stick to it. Then we have, shall we say, our less-manly fellows, who put in the time, but can't even face up to work—much less to persevere until we meet success.

Work is probably the major responsibility of man, but there are many manly virtues. Any WEAK-WILLED WILLY can cheat and steal from a student informative materials which aren't his. Any SOUR-MOUTH SAM, can roam the streets screaming profanity and impurity. Any UGLY-EYED ED can try to deceive others until finally this phoney could not even see HIMSELF in truth. But Joseph couldn't do these things—for he was a man's man. Neither will we if we emulate his virtues.

## Speaking of Virtue...

How about Respect. This certainly is a manly virtue. It recognizes the other guy's dignity and worth. Why not be a little Christ-like and practice it. All of us are Brothers in Christ. This season reminds us that we were all redeemed by the same Blood. To show respect is not a subservience on our part, it merely means that we are man enough to recognize the good in others.

Our priests, Brothers and Sisters deserve respect. They had the courage enough in order to take those titles when God called them. Let's use their title—Willya Brother? Thank you, Brother.

In addition to the religious—how about others. We meet so many souls everyday. Some of them carry the Holy Spirit in their souls; some of them received Christ in the Eucharist that morning; some of them are in mortal sin; some have never known grace. All of them suffer crosses; all of them, like ourselves, got to find their way to God. Let's recognize their worth. On public transportation facilities be subdued. At home be understanding of the faults of our families. In the classroom don't take everything out on the kid with the "Personality Minus."

Boy! it's easy to go along with a crowd. God grant that those of Bishop Ford become a crowd—one which is manly in every way.

## Speaking of crowds...

Welcome to the new Freshmen.

We welcome you to build up the greatness of a new school along with us. Already we have been building up traditions for you. When you come to Ford be prepared to contribute to a great school spirit; be prepared to begin a Franciscan education; be prepared to do anything to become a worthy son of our Saintly Brooklyn Patron, Bishop Ford.

# Pulse Beat

by Joe Destefano

### Question:

*How have your attitudes changed, if at all, concerning High School.*

**George Spicchiali—101**

I feel high school is less forboding than I first thought it was.

**Thomas Hicks—107**

I feel no different than I first did. It has been a wonderful experience so far.

**James Fitzgerald—102**

In high school the Brothers expect a higher grade of work. This has taught me to think more seriously about my vocation.

**Salvatore Pino—103**

It has given me a different point of view concerning world affairs and it has broadened my outlook generally.

**Philip Soberg—104**

There is very little social life especially with girls because of our irregular hours.

**Leonard Navarro—105**

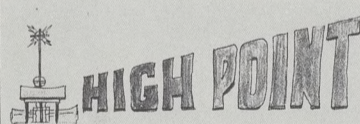

The Brothers have proved themselves to be gentlemen; always understanding and ready to give aid.

**Albert Ingallinera—108**

High School has developed student maturity and respect. It has divided the men from the boys. I wonder where I stand.

**Anthony D'Anna—106**

I am less eager to attend high school than I was at the beginning of the year.

## TO FAR PLACES, THE STORY OF FRANCIS X. FORD

by Eva K. Bitz; 192 pages;  
Hawthorn Books.

This book is a definitive study of the life of Bishop Ford, beginning with his early life in Brooklyn, and ending with his death at a Communist Chinese prison camp.

The book doesn't start immediately with "he was born on . . .", but instead begins by recounting some of the everyday events in his everyday life during 1903 and afterwards (he was eleven in 1903). The author does this for three chapters and then cleverly introduces the fact that he was born in 1892.

The story then goes on to tell of his life at Cathedral College, and of his membership on its paper, *The Chimes*. Then Father James A. Walsh comes to the College and gives a talk on missionary activities and of a new Missionary Order. After his lecture, Father Walsh is stopped by Francis Ford, who tells the priest of his eagerness to join the new order.

Then, that August, he received a note from Father Walsh that he could come to the Seminary in September. Francis threw himself into his new life at the Seminary. He did everything he was assigned as best as he possibly could. He continued in his studies and was ordained.

On September 17, 1918, Father Ford, together with some other Maryknoll Priests left Maryknoll on their trip to China. They arrived on December 21 of that same year and were warmly greeted by the Chinese.

As soon as they settled down, the priests made plans to better the mission compound. By 1919, a leper home and an orphanage were operating. The mission then operated peacefully for a number of years. In 1925, Father Ford was transferred to another missionary area, with the home station in the town of Kazing. The first thing he did there was the setting up of a Seminary to teach the native Chinese boys and young men, so they could become priests. The school progressed smoothly and when they were ordained, the native priests went out and taught the population. This increased the number of Chinese Catholic tremendously. The mission worked very well. On September 21, 1929, Monsignor Ford was consecrated a Bishop.

When the Japanese attacked China in 1937, Russia took this to its advantage and "helped" China by helping the Communist Party there and so slowly took over China.

Bishop Ford told his congregation of what the Communists were really trying to accomplish, not to help the people, but enslave them. His courage made him a great enemy to Communism. This caused his arrest, along

(Continued on page 4)

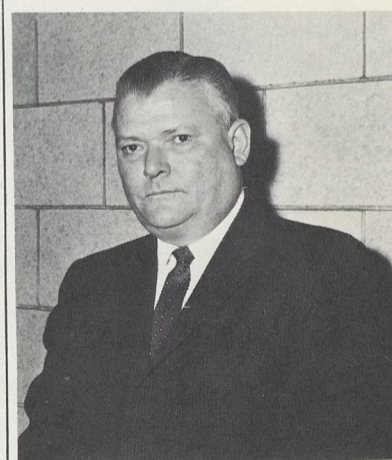

# Age Of Science Begins With God

We live in an age of science. Today science has become the most important single field of human knowledge. It has helped man to improve and control his physical and social environment.

At the beginning of mankind, man feared and worshipped fire. Progressively through the years he has found more uses for fire, such as heating homes, cooking and as a source of power, for industry and generating electricity.

As science has progressed, thus also man, gradually and steadily improving his mode of living. He now controls his environment by means of central heating in the cold weather, air-conditioning in the hot weather. Communication between places, thousands of miles apart, is now a matter of minutes. Travelling time to distant places, thousands of miles apart, is now a matter of minutes also, minimized by jet planes. Atomic energy is being used more and more in medicine, industry, transportation and communication.

However, in view of all the creations of science, which are the fruits of the ideas and experiments of scientists and inventors alike, there is one creation that can never be duplicated by science; i.e., the creation of a human being. Only God, the greatest creator of all, has this power. He has given us our life to use for our happiness and his greater Glory and not to abuse it. Life is precious. It can

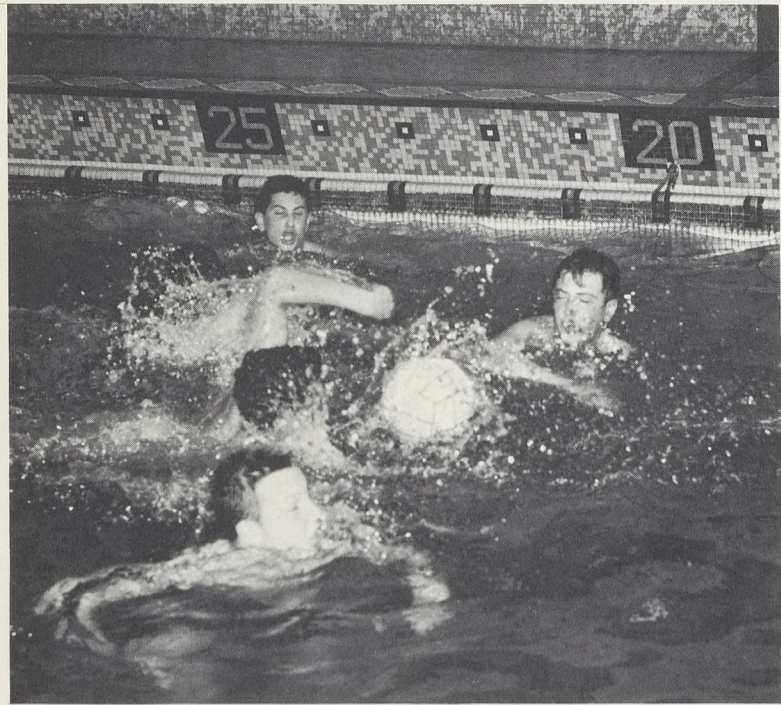

MR. JAMES NOLAN

never be produced without God. Show your gratitude by using every ounce of your vitality in all of your works.

### BISHOP FORD'S PRAYER

*Grant us, Lord, to be the doorstep by which the multitudes may come to worship thee. And, if, in saving their souls, we are ground underfoot, and spat upon and worn out, At least we shall have served thee in some small way in helping souls: We shall have become stones in the KING'S HIGHWAY*

# Water Polo Splashes Into New Activities

KELLY dribbles through Brenner but Fitzgerald is there to thwart the effort.

Another addition to our extra-curricular activity column is water polo, the members of this team being extracts of our swimming team. To insure a top-flight team, Brother George has recruited three members of the St. Francis College National Water Polo Champs of the Eastern Division to do the coaching. These assistants are: Don McQuade, Bob Peters and Charley Harris, an All-American in this grueling sport.

Water Polo is a punishing sport but most of the boys go along without argument. These athletes go to the Flatbush Boys' Club every Tuesday and Thursday to practice. The sessions last from ten o'clock until nearly eleven-thirty and the boys learn the rules and regulations under which they will have to compete. They learn quickly as good students of any game do.

These potential stars learn the essentials of the game: the barred use of two hands, forbidden standing on the bottom of the pool, no contact use of hands, feet, or elbows; no roughness on opposing players except the ball-carrier who may be attacked or dunked or almost anything within the realms of reason. If these tactics do not make him give up the ball, then nothing will. Any violation of the rules results in a free pass for the opposition.

Though the fact that only varsity teams play Water Polo hampers us from showing our skill in this sport, we shall be ready with all the ingredients needed for a fine team-skill, a desire to play and to do well and expert guidance.

## FORD RUNNERS TRIAL VICTORS

At Madison Square Garden on March 1st, the Ford Harriers' only entry in the CHSAA Track Meet became the first victor of the day.

No sooner had the first heat begun, when Bishop Ford's Sub-Midget relay team sprinted into the lead. The runners were John Philips, Joe Ondrieka, Tim Young, and anchor man, Bob Shawah, who shot over the finish line with a victory for Ford. It was a fine example of the team effort, the time being a lean 45.3 seconds, a credit to team and school. Eventually the team placed 7th in a field of twenty.

A recent interview with Brother Christopher revealed optimistic hopes for a bright future in years to come.

# GARDEN IS SCENE FOR BR. TIMOTHY'S AWARD

Ford's Top Falcon, Brother Timothy, was presented with the CHSAA Devotion Award on March 1, during the CHSAA Championship Meet in Madison Square Garden. The award was given to Brother Timothy in recognition of his efforts in advancing the athletic program in Catholic schools in the Metropolitan area for nearly twenty years. The award was presented by Brother Adrian, F.S.C., the President of the CHSAA in the Diocese of Brooklyn.

Brother Timothy was involved in track as coach and moderator in his years of teaching at Saint Francis Prep. Subsequently as Assistant Principal and then as principal, Brother included into the extra-curricular program virtually every popular activity. During his tenure, as Principal, nearly

ten years, the prowess of the Prep in each activity was unchanged. Brother who has so expressed himself so frequently is very definitely interested in the education of the Whole Man and he believes that these activities help to produce many virtues of manhood called for in the finished product.

Upon the presentation, it was thrilling that so many joined our enthusiastic, but small, number in a standing ovation. Saint Francis Prep, seated at the opposite end of the arena could be heard loud and clear. Bishop Ford Students were particularly grateful to the Loughlin Student Body and Faculty for aiding us in cheering our Principal.

Brother Timothy has received recognition before in that area and in others. He holds awards from the C.Y.O., Diocese of Brooklyn and the Saint Michael Alumni Society for distinguished service to youth in the diocese of Brooklyn.

Awards thus far at Ford have been few, but students feel confident that they are bound to succeed with such an example and leadership. Our sincere congratulations to Brother Timothy.

BROOKLYN PRESIDENT OF CHSAA, Br. Adrian of Loughlin presents award to our Principal.

## Ford Falcon Tops All CHSAA Keglers

"O YEAH" says Br. Fabian, bowling coach and athletic director, "you won all the trophies?"

Wally Antoniewicz brought top honors to Bishop Ford as he proved to be the top Junior Varsity Bowler in the Metropolitan area. On February 22, the C.H.S.A.A. held the J.V. Tournament at the Strand Alleys. Bowlers representing virtually every Catholic High School from Brooklyn, Queens, Nassau and New York City were in competition. The tournament was the Doubles' Tournament and Wally entered for Ford along with his brother Stanley, a junior at Saint Augustine. Together they bowled over all Keglers with a three game series score of 1129. Wally and Stan received first place trophies.

However, Ford's glory came as Wally took high game trophy with a near perfect 244 score. Wally is only a Freshman of course; and he competes against Sophs and Juniors. Everyone here will bet on a three hundred game next year. With two trophies already in his pocket, Wally had to walk up to receive a third for bowling over a 200 game. This, a feat in itself under the best of circumstances, was rather insignificant in comparison with what had gone before.

Special praise to Wally for becoming the first Falcon to rate top City honors.

## Bowling Champs? Uncle Fred's Boys

After eight weeks of play at the Strand Alleys, the results of the Bowling Intra-murals are finally in. Out of twenty teams participating, Uncle Fred's Boys of 107 finished first with a total of fourteen points. The members of the championship team are: Captain Matt James, McCann, Kotas, Falanza and Philips.

Close in second place, both tied with a total of thirteen points are the Golden Eagles, also of 107, with Visci as organizer, and the Zepheyers of 103, with captain, Lou Ross.

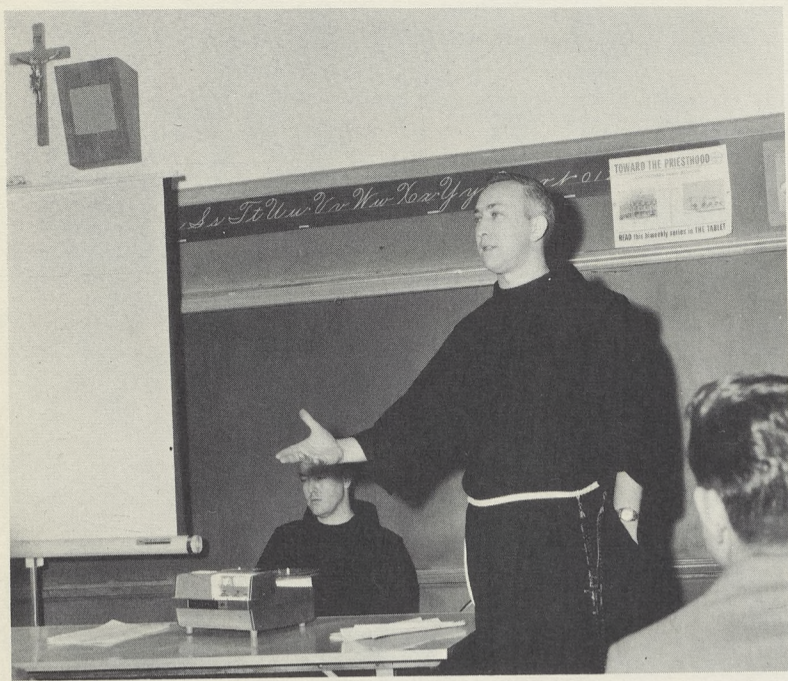

The highest game bowled during this period was Thomas Lazgaro's 207 for the Comets. Ed Lipnicki on the Strikers (104) had the highest series which is 2,434 pins in sixteen games, giving him the top average of 152 pins per game.

Visci rolled the highest single series of 355 and the Golden Eagles achieved the highest team series of 839.

SPEEDY FALCON SPRINTERS, L. to R., Asfour, Ruth, Cowley and Fitzgerald, gage speed and distance on Loughlin's hardwood track.

# Ford On Parle Français At Franciscan Parlay

BROTHER DERMOT demonstrates with ease the method of teaching French before teachers' group. Br. Zachary of St. Francis Prep is also pictured.

On March 3, the Franciscan Brothers' Educational Institute was held at Our Lady of Angels School in Bay Ridge. This annual educational meeting, sponsored by the Franciscan Brothers, represents each Franciscan Brother, Priests and Laymen and women who aid the Brothers in the supervision of their Franciscan Schools. At this meeting the assembly first convenes in order to discuss general trends in education, after which each of the participants meet in respective groups formed for the individual subject areas.

At the Modern Language Division, Brother Dermot, Chairman of the language department at Bishop Ford, gave a demonstration of the *Saint-Cloud* audio-visual method of the teaching of French. Twenty-five students of Bishop Ford represented the many who had volunteered to be present for the demonstration on that Sunday afternoon. Those who did attend were the first twenty-five of those students who requested to attend.

During the demonstration which was witnessed by teachers on all levels of education, Brother Dermot explained the operation of the method, and requested that those in attendance judge its merit for themselves. Unanimous approval and enthusiasm followed after the Ford Frenchmen went through their Monsieur Thibaut paces. Brother Camillus, Ph.D., Chairman of Languages at Saint Francis College was genuinely impressed at the relative perfection of the student's pronunciation of French.

After the demonstration, The Ford students were treated to refreshments in the cafeteria and given a grand tour of the beautiful school. Brother Dermot expressed his appreciation to the many who were present in order to make his demonstration the great success that it was. On the other hand, the Ford students were grateful that they are the recipients of the latest and best technique in the field of teaching French. VIVE LE FORD!

## Our Savants Send Projects To Fair

Two entries from Bishop Ford High School will participate in the annual Diocesan Science Fair which will be held at McClancy High School on April 27. Our entries will compete in the General Science section of the Fair with all other freshmen from Catholic Schools throughout the Brooklyn-Queens section of New York.

Joseph Destefano, 101, and Anthony Giovinco, 107, have completed a project involving the historical development of oil from antiquity until the present day. They have examined and will present for exhibit early marine fossils and rock strata displaying oil content in varying degrees of formation. They have constructed a simple derrick and seismograph to evidence their conclusions.

Also William Griffin, 106, will exhibit an electrostatic generator which he has assembled. This instrument generates electricity by the rotation of a magnet inducing current through wire.

Brother Gratian, chairman of the Department of science and Mr. James Nolan have advised our budding scientists in their noteworthy endeavors.

## BISHOP FORD (Continued from page 2)

with his secretary, Sister Joan Marie, on December 22, 1950. The Sister and the Bishop were held prisoners for three months, while the Reds worked out a case against the Bishop. He was, of course, charged with grievous crimes against the State, and was told that he had to go to Canton to be tried. He was tortured during the whole trip and was thrown into another prison when they reached Canton.

In August 1952, Sister Joan Marie was told that Bishop Ford was dead. She was then put into a car, and taken to a graveyard and shown the grave-marker, and was told that Bishop Ford was buried there. She didn't know whether to believe the Communist's or not, but prayed for the Bishop anyway. The Sister was then "expelled" to Hong Kong.

This is a very informative book, and should be read by every Ford student. It will be in our new school library.

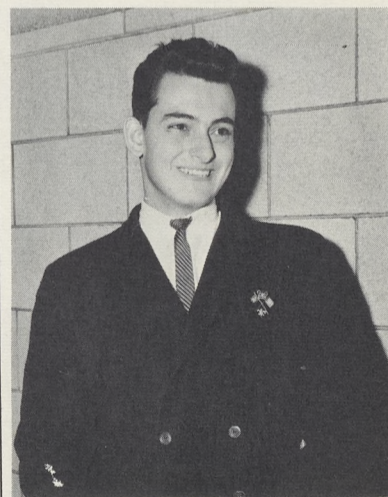

## FORD FOLIO

ED McNAMARA-102

As President of the Student Council, Edward McNamara holds a position of some importance, for he is the medium between the teachers and the student body. Through his hands pass all news from the principal to the students and likewise from the students to the principal. This, plus his membership in the basketball team and his studies, keeps him well occupied. He tells us Algebra has a special appeal for him.

Edward is from Holy Name Parish, whose pastor is Rt. Rev. Msgr. Francis X. Downing. McNamara, like all students from Holy Name, is obviously anxious for our school building to be completed. He recalls pleasant days in Holy Name School under the supervision of the Xavierian Brothers. While here he was a member of the Honor Roll and Safety Patrol.

PETE RINI-106

Pete thanks the Dominican Sisters of St. Jane Frances De Chantal Parish where he received his primary education. He is especially grateful to his eighth grade teacher, Sister Monica Frances.

Although his academic course keeps him busy, he has managed to join the Track Team and the Football Intramurals. On the track field, he is our shot-put star, being able to throw thirty-eight feet. On the football field, he belonged to Team B of 106, which won the intramurals.

After Pete leaves Bishop Ford, he hopes to go to New York City Community College, in order to become a mechanical engineer.

## FORD FISHBONES

by Charlie the Tuna

### DID YOU KNOW THAT...

Brother Cajetan's group had 41% fewer cavities.  
A "Down with Monsieur Thibaut Movement" is formulating.

In Ford we will no longer have the "cow" bell calling us out of pasture.

In Ford we won't have any pasture.

September's Frosh will out-number us.

"Buzzy" was deported to Texas.

The faculty has it in for 102.

Brother Aloysius can't spell.

### DO YOU KNOW WHY...

The natives rebelled?????  
Brother George doesn't swim?????  
We didn't have more runners at the CHSAA meet?????  
We can't put our names on the lockers?????  
Our newspaper was on strike?????  
Two negatives don't equal a positive?????  
Bishop Ford isn't co-institutional?????

### DO YOU KNOW WHO SAYS IT...

"Ya Fink."  
"If the spirit moves me..."  
"I said that nobody should talk, and since I'm sure no one here is a nobody..."  
"Let's have some FUN problems."  
"It's a challenge."  
"I will beat you, BEASTS."

### DO YOU KNOW WHO SENT ME THIS POEM???

I think that I shall never see,  
The school that is so dear to me.  
It stands half built on the avenue  
But where the heck is the working crew?

Each night six windows they do bust!  
Before we arrive, they'll all be dust.  
But by September, we do trust  
We will be there; O Yes, we must!  
As in our motto: "To Ford, or bust!"

### DO YOU KNOW CHARLIE'S WORD FOR TODAY... POSITION is everything in life...
